3) Learning changes the \_\_\_\_ through the process of continuous interactions between the learner and the external environment.

- A. physical structure of the brain
- B. chemical structure of neurons
- C. physical structure of the heart
- D. chemical structure of the spinal cord

Ans. A= physical structure of the brain

Solution: Please go through lecture notes of week-1 (slide no.04) for better understanding.

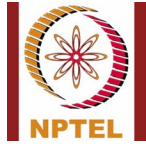

**QUESTION 4:**

4) Watson, one of the first psychologists to study learning and behavior is known for the \_\_\_\_.

- A. Little Albert experiment
- B. Little John experiment
- C. Little Robert experiment
- D. Little Johnny experiment

Ans. A= Little Albert experiment

Solution: Please go through lecture notes of week-1 (slide no.08) for better understanding.

**QUESTION 5:**

5) Which of the following is **not** explored and described by the psychology of learning?

- A. principles of motivation
- B. principles of forgetting
- C. principles of genetic disorders
- D. principles of memory
- E. principles of retention

Ans. C= principles of genetic disorders

Solution: Please go through lecture notes of week-1 (slide no.09) for better understanding.

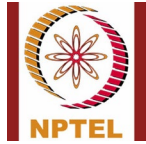

**QUESTION 6:**

6) The state of \_\_\_\_ may be valuable at the start of a learning experience.

- A. conscious incompetence
- B. unconscious incompetence
- C. conscious over-competence
- D. unconscious over-competence

Ans. A= conscious incompetence

Solution: Please go through lecture notes of week-1 (slide no.11) for better understanding.

**QUESTION 7:**

7) \_\_\_\_ is the decrease in the response that an organism gives to a stimulus to which it is exposed in numerous trials or occasions.

- A. Habituation
- B. Sensitization
- C. Forgetting
- D. Meaningful learning

Ans. A= Habituation

Solution: Please go through lecture notes of week-1 (slide no.23) for better understanding.

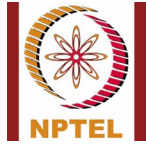

**QUESTION 8:**

8) Cooperative learning is shaped by three crucial elements. Which of the following is one of them?

- A. formation of heterogeneous groups
- B. positive interdependence
- C. individual responsibility
- D. all of the given

Ans. D= all of the given

Solution: Please go through lecture notes of week-1 (slide no.26-27) for better understanding.

**QUESTION 9:**

9) Which of the following psychologists is an important contributor to the concept of observational learning?

- A. Watson
- B. Dewey
- C. Bruner
- D. Bandura

Ans. D= Bandura

Solution: Please go through lecture notes of week-1 (slide no.28) for better understanding.

**QUESTION 10:**

10) Which of the following is not considered a pioneer of the behaviorism school of thought in psychology?

- A. Watson
- B. Skinner
- C. Freud
- D. Pavlov

Ans. C= Freud

Solution: Please go through lecture notes of week-1 (slide no.37) for better understanding.
